## MICRO R-1™

No matter what your shooting sport, the weight of your equipment is a critical factor. With the Micro-series sights Aimpoint has introduced an aiming system that gives the performance of our full-sized sights in the smallest package possible. With all of the ruggedness that has made Aimpoint sights famous all over the world, these small sights are able to withstand the conditions just as well while adding negligible weight to your firearm. Shotguns, rifles, handguns or archery tackle, these sights can do it all!

This member of the Micro family of sights is designed and built with the competitive handgunner in mind. With its silver metallic finish, the Micro R-1 is perfect on pistols and revolvers for NRA Action Pistol or IPSC competition.
